How to Access Library Resources

1. Login to PantherWEB at https://www.palmbeachstate.edu/pantherweb/default.aspx with your Student ID and Password.

2. Click the Library icon:
   - Searching for books, eBooks, or other materials?
     - Search the Online Library Catalog and limit search to Books, eBooks, Audio/Visual Materials or All Items.
   - Searching for articles, reference books, or other materials found in specific databases?
     - Click the Databases by Title or Databases by Subject tab at top and select a database.

3. When accessing the library’s resources, you might encounter a following screen requesting a borrower ID and pin.

   **What is your borrower ID?** Your borrower ID is the card number located on the back of your PantherCard. It begins with 24901. Do not use your Palm Beach State student ID number.

   **What is your pin number?** Your PIN is your four digit birth month and year (MMYY). For instance, if you were born in April of 1978, your PIN is 0478. If this does not work, try the last four digits of your social security number.
