APA: How do I cite two different parts of an organization's web page?

Example: Habitat for Humanity has a website that provides information on their organization and its history and programs. Here's an example of how this would look on your References page:

http://www.habitat.org/how/about_us.aspx

Habitat for Humanity. (2019-b). What are Habitat houses like? Retrieved from
http://www.habitat.org/how/whatlike.aspx

Note that these are in alphabetical order by title and given the a and b designations in that order.

For your in-text citation, refer to them in this way: (Habitat for Humanity, 2019-a) and (Habitat for Humanity, 2019-b).

For more APA help please contact Professor Janet Naughton naughtoj@palmbeachstate or a Reference Librarian.
